AUTHOR INDEX

Bluestein, C.
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Brandt, T. J.
Urethane-Coated Fabrics for Shoe Uppers, p. 3

Chapman, A. J.
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Davies, W. D.
Urethane Coated Textiles, p. 205

Dillon, J. H.
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Fussa, A. D.
The Electron Curing of (Urethane) Fabric Coatings, p. 170

Gasparrini, F. J.
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Gee, H. L.
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191

Gorton, A. D. T.
The Influence of the Polymer on the Properties of Foam Backing for Carpets, p. 223

Goswami, B. C.
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Harris, J. T.
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Hole, L. G.
Degradative Problems in Polyurethane Films and Coatings, p. 31
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Jansen, K. E.
A Bondable Body Cloth for Automotive Interior Applications, p. 250

Kallert, W.
Urethane Foam for Carpet Backing, p. 272

Kanok, M.
Evaluation of Synthetic Upper Materials for the Production of Winter Footwear, p. 89

Kenealy, D. R.
A Bondable Body Cloth for Automotive Interior Applications, p. 250

Koch, Dr. S. D.
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166

Lasman, H. R.
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Leigh, H. W.
Development of Urethane Foams in Textile Lamination, p. 100

Loewrigkeit, P.
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Luchini, J. R.
The Influence of Overloads on the Fatigue Life of Nylon Tire Cord, p. 154

McGimpsey, T. T.
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Miller, B.
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Morley, D. J.
Polypropylene Upholstery Fabrics, p. 134

Moss, L. B.
Current and Future Application for Urethane Coatings on Textiles, p. 146

Murphy, B. M.
Absorptive Vinyl – A Novel Footwear Material, p. 240

Nablo, S. V.
The Electron Curing of (Urethane) Fabric Coatings, p. 170

Orr, R. B.
Early Findings Related to the Use of Solvent-Free Reactive Polyurethane Systems for Coated Fabrics, p. 141

Payne, A. R.
Degradative Problems in Polyurethane Films and Coatings, p. 31

Price, J. M.
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166

Reiss, W.
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47

Reynolds, R. J. W.
Degradative Problems in Polyurethane Films and Coatings, p. 31

Suskind, S. P.
Man-Made Leather Substrates. Part II: Woven Fabrics, p. 19

Tashlick, I.
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180
Urethanes in Coated Fabrics: Processes and Products, p. 183

VanDyk, K. A.
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Wang, T. H.
Early Findings Related to the Use of Solvent-Free Reactive Polyurethane Systems for Coated Fabrics, p. 141

Waters, B. T.
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

SUBJECT INDEX

Abrasion
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Absorptive Vinyl
Absorptive Vinyl – A Novel Footwear Material, p. 240

Acrylic Ester Adhesive
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Adhesion
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Adhesive Bonding
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Adhesives, Polyurethane
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Aging
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Airmat
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Airship Fabrics
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Aliphatic Urethanes
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180

Apparel
Current and Future Applications for Urethane Coatings on Textiles, p. 146

Aromatic Urethanes
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180

Artificial Leathers
Degradative Problems in Polyurethane Films and Coatings, p. 31

Automotive
Current and Future Applications for Urethane Coatings on Textiles, p. 146

Automotive Interiors
A Bondable Body Cloth for Automotive Interior Applications, p. 250

Backing Materials
Urethane Foam for Carpet Backing, p. 272

Body Cloth
A Bondable Body Cloth for Automotive Interior Applications, p. 250

Bonding
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Bursting Strength
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Carpet Backing
Polypropylene Upholstery Fabrics, p. 134
Urethane Foam for Carpet Backing, p. 272

Carpets
The Influence of the Polymer on the Properties of Foam Backing for Carpets, p. 223

Coated Fabric Properties
Urethanes in Coated Fabrics: Processes and Products, p. 183

Coated Fabrics for Shoe Uppers
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Coated Textiles
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

Column Bending
Improved Coated Fabrcis for Deep-Sea Divers' Dresses, p. 117

Design
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Duraweave
A Bondable Body Cloth for Automotive Interior Applications, p. 250

Electron Resin Cure
The Electron Curing of (Urethane) Fabric Coatings, p. 170

Extrusion Injection Moulding
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191

Fabric Coating Processes
Early Findings Related to the Use of Solvent-Free Reactive Polyurethane Systems for Coated Fabrics, p. 141

Fabric Quality
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Fashion Textile Industry
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

Fatigue
The Influence of Overloads on the Fatigue Life of Nylon Tire Cord, p. 154

Field Failures
Urethane-Coated Fabrics for Shoe Uppers, p. 3

Film Faults
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Flame Bonding
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Flexible Coatings
Early Findings Related to the Use of Solvent-Free Reactive Polyurethane Systems for Coated Fabrics, p. 141

Flexing
Evaluation of Synthetic Upper Materials for the Production of Winter Footwear, p. 89

Flex Testing
Urethane Coated Textiles, p. 205

Foam Backing
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

The Influence of the Polymer on the Properties of Foam Backing for Carpets, p. 223

Foam Production
Development of Urethane Foams in Textile Lamination, p. 100

Footwear
Absorptive Vinyl – A Novel Footwear Material, p. 240
Current and Future Applications for Urethane Coatings on Textiles, p. 146

Footwear, Winter
Evaluation of Synthetic Upper Materials for the Production of Winter Footwear, p. 89

Free Radical Cure
The Electron Curing of (Urethane) Fabric Coatings, p. 170

Glassy State
Evaluation of Synthetic Upper Materials for the Production of Winter Footwear, p. 89

Heat Fusion
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

High Gloss
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166

High Temperature Fabrics
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Hydrolytic Stability
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180

Hydrolysis Resistance
Urethane Coated Textiles, p. 205

Hydrostatic Resistance
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Inflatable Structures
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Laminates
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Lamination Adhesion
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Lamination Variables
Development of Urethane Foams in Textile Lamination, p. 100

Latex Polyurethane
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Leak and Peel Tests
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Light Stability
Urethane Coated Textiles, p. 205

Lining Materials
Absorptive Vinyl – A Novel Footwear Material, p. 240

Low Gloss
UV–Cured Coatings for Vinyl-Coated Fabrics, p. 166

Man-Made Leather
Man-Made Leather Substrates, Part II: Woven Fabrics, p. 19

Man-Made Shoe Uppers
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Manufacturing
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180

Manufacturers, Footwear
Urethane-Coated Fabrics for Shoe Uppers, p. 3

Napped Cottons
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Napped Fabrics
Urethane Coated Textiles, p. 205

Napping
Man-Made Leather Substrates, Part II: Woven Fabrics, p. 19

Natural Rubber
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Nomex Yarn
Silicone-Coated Airmat Cloth for Inflatable Structures, p. 27

Nylon Tire Cord
The Influence of Overloads on the Fatigue Life of Nylon Tire Cord, p. 154

Pattern Variations
Man-Made Leather Substrates, Part II: Woven Fabrics, p. 19

Peel Strength
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Physical Properties
The Influence of the Polymer on the Properties of Foam Backing for Carpets, p. 223

Polymers
The Influence of the Polymer on the Properties of Foam Backing for Carpets, p. 223

Polypropylene Upholstery
Polypropylene Upholstery Fabrics, p. 134

Polyurethanes
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Poromeric Composites
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47

Poromerics
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

Process Effects
Development of Urethane Foams in Textile Lamination, p. 100

PVC Fabrics
Urethanes in Coated Fabrics: Processes and Products, p. 183

PVC Vinyl Coated Fabrics
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166

Release Papers
Urethane Coated Textiles, p. 205

Retailer's Viewpoint
A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

Seams
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Shoe Fashions
Urethane-Coated Fabrics for Shoe Uppers, p. 3

Shoe Upper Materials
Evaluation of Synthetic Upper Materials for the Production of Winter Footwear, p. 89

Shoe Uppers
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47
Urethane-Coated Fabrics for Shoe Uppers, p. 3

Skin Coats, Polyurethane
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Solution Polyurethanes
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Stiffness
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Substrates
Current and Future Applications for Urethane Coatings on Textiles, p. 146

Synthetic Leather
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191

Synthetic Rubber
Improved Coated Fabrics for Deep-Sea Divers' Dresses, p. 117

Synthetic Shoe Uppers
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Synthetic Upper Materials
Absorptive Vinyl – A Novel Footwear Material, p. 240

Template
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Testing
Quality Control of the Product on Polyurethane Coated Fabric Manufacturing Plant, p. 82

Test Methods
Urethane Coated Textiles, p. 205

Textile Coatings
The Design of Solution Polyurethanes for Textile Coatings, p. 63
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191
Urethane Coated Textiles, p. 205

Textiles
Current and Future Applications for Urethane Coatings on Textiles, p. 146
Development of Urethane Foams in Textile Lamination, p. 100
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

Textured Yarns
Polypropylene Upholstery Fabrics, p. 134

Thermoplastic Urethanes
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191

Tie-Coat
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180

Tire Cord
The Influence of Overloads on the Fatigue Life of Nylon Tire Cord, p. 154

Tires
The Influence of Overloads on the Fatigue Life of Nylon Tire Cord, p. 154

Topcoats, Polyurethane
The Design of Solution Polyurethanes for Textile Coatings, p. 63

Transfer Coating
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158
Urethane Coated Textiles, p. 205

Upholstery
Current and Future Applications for Urethane Coatings on Textiles, p. 146
Polypropylene Upholstery Fabrics, p. 134

Urethane Coated Fabrics
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158
Urethane-Coated Fabrics for Shoe Uppers, p. 3
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Urethane Coatings
Current and Future Applications for Urethane Coatings on Textiles, p. 146
Degradative Problems in Polyurethane Films and Coatings, p. 31

Urethane Composites
Early Findings Related to the Use of Solvent-Free Reactive Polyurethane Systems for Coated Fabrics, p. 141

Urethane Compounding
Thermoplastic Urethanes for Extrusion Injection and Blow Moulding and for Textile Coating, p. 191

Urethane Degradation
Degradative Problems in Polyurethane Films and Coatings, p. 31

Urethane Fabrics
The Electron Curing of (Urethane) Fabric Coatings, p. 170
Some Current Industrial Practices in the Manufacture of Urethane Coated Fabrics, p. 180
Urethanes in Coated Fabrics: Processes and Products, p. 183

Urethane Films
Degradative Problems in Polyurethane Films and Coatings, p. 31

Urethane Foam
Development of Urethane Foams in Textile Lamination, p. 100
Urethane Foam for Carpet Backing, p. 272

Urethane Latex
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Urethanes
The Design of Solution Polyurethanes for Textile Coatings, p. 63
Flame and Adhesive Bonding – The Factors Affecting Each System, p. 7

A Retailer's View of the Use of Polyurethanes in the Fashion Textile Industry, p. 112

Urethane Skin Coat
Factors Influencing Latex Tie-Coat Adhesion in Urethane Skin Coat to Fabric Bonding, p. 158

Urethane Shoe Uppers
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Urethane Substrates
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47

UV-Cured Coatings
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166

Vinyl, Absorptive
Absorptive Vinyl – A Novel Footwear Material, p. 240

Vinyl Coated Fabrics
A Bondable Body Cloth for Automotive Interior Applications, p. 250
UV-Cured Coatings for Vinyl-Coated Fabrics, p. 166
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Vinyl Shoe Uppers
Vinyl and Urethane Coated Fabrics for Shoe Uppers, p. 256

Web Formation
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47

Woven Fabrics
Man-Made Leather Substrates, Part II: Woven Fabrics, p. 19

Xylee
The Manufacture and Properties of Fibrous Composite Poromerics, p. 47
